Prepare for Your Exam and Launch Your Career!

8.9.1

Certification Preparation and Discount Vouchers 🔖

Congratulations! You have completed your Cisco Networking Academy course!

Discount Voucher

A discount voucher for the certification exam is available after you have completed the DEVASC course.

If you scored a 70% or higher on the **FIRST** attempt of the **Final Exam in DEVASC**, and have a "Pass" in the gradebook, then you are eligible for a discount voucher for a Cisco certification exam.

When you qualify for a Certification Exam discount (voucher) a link will display on your class tile in NetAcad.com and on your NetAcad.com profile.

Additional Study Materials for Certification Preparation

Access additional study materials or attend free webinars from Learning@Cisco.

Registration is free. Use your NetAcad login, or if you have already taken a Cisco certification exam, use your cisco.com login. When you are logged in, use the links below for information for your certification.

Career Resources and Employment Opportunities

Prepare for a career in technology!

You are on your way to a rewarding tech career, but have you wondered what exactly you need to do in order to be ready for the workplace?

We provide valuable career resources to help you prepare to be a part of the workforce and successfully seek out employment. These resources have been created to help you, as a Networking Academy student, succeed in a tech career. If you are looking for career guidance, virtual learning opportunities, and access to an exclusive matching engine to search for jobs – we have just what you need. Bookmark these three links and start growing your potential today:

- https://www.netacad.com/careers/employment-opportunities
- https://www.netacad.com/careers/webinars
- https://www.netacad.com/careers/career-advice

Find and apply for jobs using our Talent Bridge Matching Engine!

Our http://bit.ly/nac2career is Networking Academy's exclusive job matching tool. The Matching Engine uses your Networking Academy profile data to display relevant positions for which you qualify. Be sure to add certifications, work experience, and geographic location to your profile so employers can find you. Then, apply for jobs that interest you, right from the Matching Engine dashboard.

Even if you are not seeking employment, you can start building your profile and see what employers are looking for in job candidates.

Build your professional network!

Regardless of where you are in your journey, you should start building your professional network. Start by adding https://www.linkedin.com/school/cisco-networking-academy1/ to your Education section on your LinkedIn profile. You will have access to the latest career advice, job opportunities, as well as be more easily found by employers searching for qualified Networking Academy students to join their team.
